5500W \$629.80

GENERAC GP5500 Model #5939

7500W \$920.13

GENERAC GP7500 Model #5943

- **The Power to Live**

During a power outage, portable generators make sure the most important items - lights, kitchen appliances, personal electronics, sump pumps, space heaters, air conditioners - stay up and running.

- **The Power to Work**

Utility power isn't always available where and when you need to work. Take a portable generator to a remote location for power instead of running long extension cords. Or rely upon portable power if you need to turn off utility power for extensive work.

- **7500E includes an electric start, and is ideal for job sites, emergency backup power and recreational applications.**

- **5500W has enough power for emergency use, outdoor recreation and DIY projects.**
